Hiring Manager

Dear Hiring Manager,

I am excited to apply for the Software Engineer position at Google. With over six years of hands-on experience in full-stack development, I am thrilled at the prospect of contributing to your dynamic team and tackling some of the most challenging problems in technology.

### My Journey and Achievements

Allow me to share a bit about my professional journey:

**Shyftlabs:** As an SDE-3, I took the lead in transforming a legacy API project into a TDD environment. This involved migrating from PostgreSQL to SQLite, achieving 98% test coverage, and resolving over 90 critical bugs. I also configured Tox for GitLab pipelines and CI/CD workflows, which significantly improved our development processes.

**ORNAZ:** During my tenure at ORNAZ, I was pivotal in developing a desktop-specific e-commerce website using Next.js. This project achieved perfect Lighthouse metrics and page load times under 500ms. I also led the transition from a monolithic architecture to microservices, ensuring 99.99% uptime with Docker Swarm and optimizing API response times to under 50-100ms.

### Let's Collaborate

I envision us working together to push the boundaries of what's possible in technology. Here are a few ways I see myself contributing to the company:

- **Innovative Solutions:** Leveraging my expertise in full-stack development and microservices architecture to create scalable and efficient solutions.
- **Agile Development:** Utilizing my experience in agile methodologies to drive projects forward effectively.
- **User-Centric Design:** Enhancing user experiences through optimized front-end performance and progressive web apps.

### What's Next?

I would love to discuss how my background, skills, and passions align with the goals of your team at Google. Could we schedule a conversation to explore this further? Please feel free to contact me at +91-7355437836 or via email at [ashutosh.career19@gmail.com](mailto:ashutosh.career19@gmail.com).

Thank you for considering my application. I am looking forward to the possibility of joining and contributing.

Sincerely,  
Ashutosh Verma
